Positive COVID-19 Test Reported

Heartland Early Education Center received confirmation on June 30, 2020 that a staff person who ***has not been working with students*** tested positive for COVID-19.

The Saline County Health Department is in the process of contacting anyone who needs to be notified.

Safety protocols remain in use including sanitizing equipment and classrooms, and taking precautions against COVID-19 such as handwashing and social distancing. All USD 305 staff continue to self-screen prior to reporting to work each day.

“Our primary goal is to educate our students in a safe environment,” said Linn Exline, superintendent. “We will continue to reevaluate safety protocols and adjust in response to the changing situation.”

Salina USD 305 communicates regularly with the Saline County Health Department and continues to follow their guidance.

Heartland Early Education is a multi-county program that serves eligible preschool students and families.
