p. Approve June 30, 2022 Unencumbered Cash Balances

All 2021-2022 transactions, payments, journal entries and transfers were completed as of June 30, 2022. The resulting unencumbered cash balances are listed below. Expenditures were under budget in areas such as substitute costs, instructional supplies, school resource officer contracted services, legal expenditures, utilities and salary expenditures (due to multiple open positions). In addition, Salina Virtual Innovation Academy virtual state-aid exceeded estimates in its first year. The capital outlay cash balance and health insurance trust fund increased accordingly.

CKCIE ended the year with a healthy balance due to multiple open positions and increased Medicaid funding, providing flexibility in future budget planning. The food service fund's ending balance was higher than normal due to the larger federal food service reimbursement rate for all meals served in the 2021-2022 school year.

Other fund balances are consistent with the prior year and are maintained for cash flow needs.

r. Approve CKCIE Contract with Presence Learning

Central Kansas Cooperative in Education (CKCIE) continues to have 4.0 FTE openings in the speech language pathology (SLP) department based on the current number of students receiving speech therapy. This spring, CKCIE was able to hire 5.8 FTE for SLPs, but had 2.6 FTE in resignations received at the end of the year.

There continues to be a tremendous shortage of certified SLPs in the state. To compound the shortage within the school setting, SLPs have the ability to work in both the educational and medical environments. Many current graduates in this area have chosen to work in the medical environment due to higher salaries paid. This has forced the administrative team at CKCIE, for an eighth year, to look for other options to serve students, one being tele-therapy. Tele-therapy occurs when a SLP with a Kansas license is located at a remote site and services are delivered by monitor/webcam. A paraeducator sits with the child during the therapy sessions.

During the last several school years, CKCIE utilized this service through Presence Learning Corporation as a stop-gap measure. The company provided services for 395 students this past school year. CKCIE is pleased with the quality of therapy provided to our students.

For the 2022-2023 school year, it is recommended that CKCIE utilize the Presence Learning Corporation to serve a minimum of 185 students. The estimated cost of contract services is approximately \$425,000 (cost per hour is \$74).

The total annual salary/benefits of the 4.0 FTE of SLPs, who CKCIE was unable to replace, is \$259,968. This contract is for one school year and will be revisited annually to see if the tele-therapy services are needed again for the following school year. Our goal is to continue to hire local speech therapists to reduce or eliminate the need for a tele-therapy contract.

It is recommended that you approve the contract with Presence Learning for the 2022-2023 school year for a minimum of 185 students as presented.

This Master Services Agreement ("MSA") is entered into as of the date of the last signature set forth on the signature page attached hereto ("Effective Date"), by and between PresenceLearning, Inc., a Delaware corporation with a place of business located at 530 Seventh Ave, Suite 501, New York, NY 10018 ("PresenceLearning"), and the undersigned customer ("Customer"). Each of PresenceLearning and Customer may individually be referred to as a "Party" and collectively referred to as the "Parties".

NOW, THEREFORE, for good and valuable consideration, the receipt and sufficiency of which is hereby acknowledged, PresenceLearning and Customer, hereby agree as follows:

- 1. Structure of the Agreement. This MSA shall apply each time Customer engages with PresenceLearning for the provision of services and/or products ("Services"). The Services shall be described in one or more schedules (each, a "Schedule"), service orders (each, a "Service Order"), and/or exhibits (each, an "Exhibit"), each of which shall reference this MSA and, with respect to each Schedule or Service Order, shall be executed by the Parties. Each Schedule, Service Order, and Exhibit entered into or delivered hereunder (each an "Incorporated Document", and collectively, "Incorporated Documents") may provide additional terms and conditions related to the Services. This MSA and the Incorporated Documents are collectively referred to herein as the "Agreement". In the event of a conflict between the terms of this MSA and the terms of any Incorporated Document, the terms of the MSA shall control; provided, however, that the Parties may in any Incorporated Document specifically (i.e., with reference to the MSA) agree to: (a) exclude or except an otherwise controlling provision of this MSA; (b) adopt a clause or provision to apply in lieu of an otherwise controlling provision of this MSA; or (c) reference a governing external code, document, or standard that will apply in lieu of any otherwise controlling provision of this MSA (or any Incorporated Document).
- 2. Fee and Payment Terms. Customer shall pay all fees (collectively, "Fees") specified in the Schedule or Service Order for the Services being purchased. Fees are due and payable thirty (30) calendar days from date of invoice, unless specified otherwise in a Service Order. Customer may dispute an invoice no later than twenty (20) calendar days from the date of the invoice. The Parties will work together in good faith to resolve any disputes as soon as possible. Upon resolution, Customer shall remit the amount owed within ten (10) calendar days. Customer is responsible for all taxes, except for taxes on PresenceLearning's income, unless Customer provides a state tax exemption certificate. If Customer does not submit a tax exemption certificate to PresenceLearning, Customer will be invoiced for any applicable taxes.

3. Term; Termination; Effects of Termination.

- 3.1. <u>Term.</u> The term of this MSA commences on the Effective Date and continues until terminated by either party pursuant to Section 3.2 (such period, the "Term"). Each Incorporated Document shall have the term specified therein.
- 3.2. <u>Termination</u>. This MSA or any Incorporated Document may be terminated: (a) by either Party without cause upon thirty (30) calendar days prior written notice to the other Party; (b) by PresenceLearning upon any failure of Customer to pay when due any Fees (as defined in Section 2) if such Fees are not being disputed in good faith in accordance with Section 2 and such failure continues uncured for a period of thirty (30) calendar days after PresenceLearning provides written notice of the non-payment; <u>provided</u>, <u>however</u>, that in lieu of terminating the MSA or any Incorporated Document, PresenceLearning may, at its sole option, suspend Services, in whole or in part; (c) by either Party with cause upon a non-payment related material breach of the Agreement by the other Party which breach is not cured within fifteen (15) calendar days after the breaching Party receives written notice of the breach from the non-breaching Party; or (d) immediately if the other Party becomes insolvent or declares bankruptcy.
- 3.3. <u>Effects of Termination</u>. Upon the termination of the MSA or the expiration or termination of any Incorporated Document for any reason, (a) all Fees owed to PresenceLearning that accrued before such termination or expiration will be immediately due and payable, except for any such amounts being disputed in good faith by Customer in accordance with Section 2 and (b) Customer shall not be entitled to a refund for any annual Fees paid by Customer prior to the date of termination of the MSA or any Incorporated Document.

- 8.1. <u>Customer Data.</u> Customer retains all rights, in and to all data, files, information, provided by Customer or its authorized users to PresenceLearning.
- 8.2. <u>State Privacy Laws</u>. - 8.3. FERPA. In connection with the performance of Services, PresenceLearning may have access to education records ("FERPA Records") that are defined in and subject to the Family Educational Rights and Privacy Act, 20 U.S.C. 1232g, et seq. and related regulations ("FERPA"). To the extent that PresenceLearning has access to FERPA Records, PresenceLearning is deemed a "school official" and may use FERPA Records solely for the specific "legitimate educational purposes" as defined under FERPA. We are entering into the first of two option years in the current contract.

Changes to Exhibit A-Pricing, to the contract:

- Added line items for school-to-school shuttle trips;
- Changed naming conventions for Pre-K services;
- Removed unused naming conventions;
- Divided the matrix into Routes, Trips, and Activities categories;
- Increased pricing for Pre-K trips, school-to-school shuttles, and the hourly rates for activity trips; and
- Added 2-hour minimum for bus attendants for mid-day trips.

It is anticipated that there will be an overall cost increase of approximately 1% as a direct result of these changes.

<u>It is recommended that you approve the contract revisions with Durham School</u> Services as presented.

t. Approve Revenue Neutral Rate

During the 2021 legislative session, the tax lid was removed and the legislature enacted SB 13 and Senate Sub for HB 2104. This legislation established new notice and public hearing requirements if the proposed budget will exceed the property tax levy's revenue neutral rate.

What is a Revenue Neutral Rate (RNR)?

The tax rate in mills that would generate the same property tax revenue in dollars as levied the previous tax year using the current tax year's total assessed valuation is the RNR.

We are required to notify the County Clerk by July 20 the intent to exceed the RNR.

All districts will likely exceed the RNR as the assessed valuation usually increases each and every year. We have set levies for general fund (20 mills), capital outlay (8 mills), and SAEC (.75 mills). With the estimated assessed valuation, provided to us by the County Clerk, we will exceed the RNR in these funds. For Bond & Interest and LOB funds, we will need to prepare calculations using KSDE budget software to determine what levy is needed to fund the budget authority for those two funds. New legislation was passed that says school districts are deemed to have not exceeded their RNR in the event the excess was solely attributable to increased revenue from the 20 mill statewide school finance levy.

We will need time to close out Fiscal Year 2022 and prepare the calculations for RNR. Due to time constraints, the projected rates are not yet available. The final rates will be shared with the board at the budget worksession on August 9. After the worksession, the board will be asked to approve the notice of hearing for both the budget hearing and the RNR hearing. The hearings will be held at the regular board meeting on September 13, 2022.

It is recommended that you authorize administration to prepare the RNR calculations and, if applicable, notify the County Clerk by July 20, 2022 that USD 305 will exceed the Revenue Neutral Rate for the applicable levying funds.

u. Approve 2022-2023 Mileage Allowance

The reimbursement rate for use of personal cars on school business is set by the board at the beginning of each fiscal year. The board set the 2021-2022 mileage allowance equal to the federal mileage reimbursement rate. As of July 1, 2022, the 2022 federal mileage reimbursement rate is 62.5 cents per mile. If the federal government adjusts the rate during the fiscal year, the board will be notified of the change.

It is recommended that the board establish the district mileage reimbursement rate at the federal mileage reimbursement rate for 2022-2023.

v. Approve 2022-2023 Petty Cash Funds

K.S.A. 72-1177 authorizes the establishment of petty cash funds for expenditures for school district purposes for emergencies. Petty cash funds are also used for refunding of student fees and other one-time payments. An employee of the school district to administer petty cash funds and the amount of each fund (not to exceed \$1,500 per fund) is to be designated. In past years, we have maintained petty cash funds in the high schools, Heartland Early Education and the district office. Monthly reports are submitted by each entity to the business office. All transactions require proper accounting procedures including receipts, approval, reconciliations and monthly reports and are included in the annual audit.

It is recommended that you authorize petty cash funds for Central High School, South High School, Heartland Early Education and the district office at \$1,500 per fund and designate Lisa Peters as the employee to administer said funds.

w. Approve HVAC Repair with Trane

Maintenance of district-wide heating, air conditioning and ventilation (HVAC) systems is an ongoing cost. Due to the size and complexity of the various HVAC systems currently in use in the district's buildings, much of the major maintenance service must be outsourced. Additionally, service and repairs are frequently urgent in nature and writing individual purchase orders for each occurrence would be inefficient.

Trane is the preferred company for this type of service.

It is recommended that you authorize an open purchase order to Trane in the amount of \$40,000. This open purchase order will be used to debit ongoing FY23 repair charges.

x. Approve HVAC Technical Support with Building Controls Services (BCS)

Maintenance of district-wide heating, air conditioning and ventilation (HVAC) systems is an ongoing cost. Due to the size and complexity of the various HVAC systems currently in use in the district's buildings, much of the major maintenance service must be outsourced. Additionally, service and repairs are frequently urgent in nature and writing individual purchase orders for each occurrence would be inefficient.

Our digital control system is proprietary to BCS; they are therefore the preferred company for this type of required service.

It is recommended that you authorize an open purchase order to Building Controls Services in the amount of \$75,000. This open purchase order will be used to debit ongoing FY23 repair charges.

y. Approve Liquidation of Excess School Equipment and Supplies

Excess equipment and supplies no longer needed in the district must be liquidated. This is an ongoing process in USD 305. Equipment becomes excess for several reasons including, but not limited to, condition, educational relevance and normal replacement cycles. There is an ongoing need to properly liquidate such supplies and equipment.

In the past, the district has used internet sales, local consignment auctions, public auctions, sale to vendors through bid or quote processes and recycling and trade-ins as various means to liquidate surplus equipment and supplies. There is no single method preferred. Each type of item or supply takes evaluation to determine the best and most beneficial method to use for liquidation.

K.S.A. 72-3216 grants the board of education authority to dispose of property "in such a manner and on such terms and conditions as the board deems to be in the best interest of the school system." Board policies DFM – Equipment and Supplies Sales and KK - Public Sales on School Property govern the liquidation of property. Both policies give the board authority to dispose or liquidate at the board's discretion. A copy of K.S.A. 72-3216 and policies DFM and KK are included as part of this summary.

It is requested that the board of education grant the operations department authority to dispose of excess and unused equipment in any manner that reasonably can be considered to be in the best interest of the district. The action will allow the operations department the option to disperse or recycle any and all excess equipment and supplies that are no longer needed by the district. This specific authority of the board shall remain in effect until June 30, 2023 or until the board officially rescinds such authority, whichever occurs first.

It is recommended that you approve the liquidation of excess school equipment and supplies as presented.

z. Approve 2022-2023 Facility Use Fees

The 2022-2023 proposed rates for use of the USD 305 facilities is presented.

Over the coming year, USD 305 will be migrating to a web-based reservation system called Events Manager. The process for requesting use of our facilities will change accordingly.

It is recommended that you approve the 2022-2023 Facility Use Fees as presented.

FACILITY USE PROCEDURES & FEES FOR 22-23

SCHEDULING

School Year/Scheduling: Reservations for facilities must be submitted fourteen (14) days in advance. Reservations shall be reviewed and approved by both the designated building administrator and building operator prior to Executive Director of Operations approval.

Facility requests for long-term reservations turned in prior to August 15 will be considered on or about August 15. Requests for conflicting times will be selected by random selection process. Facility requests submitted after August 15 will be scheduled on a space available basis.

Summer Scheduling: Requests are received and held until April 15. At that time, all requests received are scheduled by the operations department. Conflicts are resolved by random selection. Requests received after April 15 will be scheduled on a space-available basis.

Duration or Time for Reservation: Requests for practice type use of facilities will be limited to 1 hour 15 minutes. This is primarily applicable to the elementary schools so that two practices can be accommodated each evening in the multi-purpose rooms. This time limit for use will be applicable only when there are multiple requests for the same facility at a similar time. When there are no competing requests, time of use may be lengthened.

Priority Scheduling: Following are the general guidelines for priority of scheduling:

Custodial supervision rates will be applicable for all hours. In addition to the maximum use fees, off-duty custodial time will be assessed as outlined under "custodial overtime charges."

Group Categories to Apply Charges: There are three types of charges: no fees, reduced fees and full fees. Various groups and the level of charges are reflected on the Group Rate Schedule.

Reduced fee groups shall be those who are normally considered non-profit by virtue of federal tax code 501(c)(3).

IF-R

Selection Criteria: Textbooks and instructional materials shall provide

- an effective education for all students;
- factual knowledge, literary appreciation, aesthetic values and ethical standards;
- practice for students to develop abilities in critical thinking and communication;
- information which helps students develop an appreciation of American cultural, ethnic and racial diversity and balanced views concerning international, national, state and local issues and problems; and
- sufficient flexibility for meeting the special needs of individuals and groups.

The superintendent shall develop selection procedures which meet the above criteria and include a review of available material by instructional staff members.

Challenges of Materials (See IKD, KN)

Any citizen or parent of any students in the district having a complaint about textbooks or other instructional materials shall first notify the teacher in writing, identifying the part or parts of the material deemed objectionable, and meet with the teacher and building principal.

The challenged materials shall not be removed from the classroom/media center as a result of the initial meeting.

Review Committees

If the complaint is not resolved and the complainant wishes to pursue the objection, the complainant must file a "Request for Reconsideration" form with the building principal. Within five school days of the filling, a building level review committee will be appointed by the building principal to review the material in question. The review committee shall consist of the principal, the library media specialist, two teachers, and two citizens. The principal will act as chairperson. The challenged materials shall not be removed from the classroom or media center by the review committee during the evaluation period, but, upon formal request from the parents of that student, the student will be supplied with substitute material for completing the course requirements.

The following guidelines shall apply to the evaluation process

- examine and evaluate the materials as a whole, not on the basis of passages pulled out of context;
- consider the district's policy, procedure and philosophy for selection of textbooks and instructional materials;
- weigh strengths and weaknesses and form opinions based upon the selection criteria, the
 appropriateness of the materials to the reading ability and maturity level of the student, relevance to
 the curriculum and educational goals of the school; and
- meet to discuss the material and prepare a written report of the decision to be completed within 15 school days of the committee's appointment.

The written report shall be given to the complainant and copies directed to the executive director of school improvement and the coordinator of media services. If the decision is to withdraw or discontinue use of materials, the executive director of school improvement or coordinator of media services will consider the report in deciding on appropriateness in other schools within the district. This constitutes the first level of appeal.

If the complainant is dissatisfied with the decision, a second appeal may be filed with the executive director of school improvement within 10 school days of the complainant's receipt of the written decision. A district wide appeal committee consisting of one principal, the executive director of school improvement, the coordinator of media services, two teachers, three certified staff members that include teachers and media specialists, and three citizens shall be appointed by the executive director of school improvement within five school days of the receipt of the second appeal to review the material in question. The building principal will act as chairperson. None of the members of the second-level appeal committee shall have served on the first-level review committee, and the staff members shall be appointed from the appropriate educational level, elementary or secondary, depending upon where the challenge has originated.

Within 15 school days of the committee's appointment, the committee chairperson shall present a written report containing the decision to the complainant with a copy given to the superintendent. Within 10 school days of receipt, the complainant has the right to appeal this decision to the board of education by filing a written notice of appeal with the superintendent.

Within 45 days of receipt of the notice of appeal, the board of education will review the reports from the appeal committees and provide a hearing for the complainant. This level shall constitute the third and final level of appeal within the school district. The decision of the board of education shall be final.

Decisions may resolve complaints at any one of the levels as outlined in the preceding policy. Nothing in this rule shall be construed as denying a student's rights as specified in Kansas statutes and administrative regulations to opt out of certain parts of the curriculum.

- <u>information which helps students develop an appreciation of American cultural, ethnic and racial diversity, and balanced views concerning international, national, state, and local issues and problems; and</u>
- <u>sufficient flexibility for meeting the special needs of individuals and groups.</u>

The superintendent shall develop selection procedures, which shall include a review of available material by instructional staff members.

Selection Criteria: Media Center Materials

- Materials shall be chosen for accuracy, artistic quality, format, and authoritativeness.
- <u>Materials shall be chosen on various reading levels presenting different points of view, including current issues.</u>
- Books and other media materials shall be evaluated before purchase, either through direct examination or by using reputable, unbiased, professionally prepared selection tools.
- The media center(s) shall obtain, process, and circulate materials and equipment and provide references and other services to students and faculty. Media specialists shall work toward providing resources so that students have an opportunity to achieve high levels of performance.

Collection Development

The media collection shall be developed systematically, be well balanced in coverage of subjects, and include various types of materials and diverse content in multiple formats.

The collection shall reflect, enhance, and complement the broad interests represented in the curriculum. The collection should be large enough to allow materials to be placed in classrooms for extended periods of time.

Challenges of Materials

Any student, parent, or legal guardian of a student currently enrolled in the district having a complaint about textbooks, media center, or other instructional materials may initiate a challenge. Only challenges involving materials assigned to or made available to the qualifying student's grade level shall be considered.

To initiate a challenge, the student, parent, or legal guardian of the student shall first notify the teacher, media specialist, or principal in writing, identifying the part or parts of the material deemed objectionable, and meet with the teacher, media specialist, or principal.

Building-Level Review Committee

If the complaint is not resolved after the initial meeting and the complainant wishes to pursue the objection, the complainant must file a "Request for Reconsideration" form with the building principal. Within five school days of the filing, a building-level review committee will be appointed by the building principal to review the material in question. The review committee shall consist of the principal, the library media specialist, two teachers, and two citizens. The principal will act as the chairperson. If reasonable attempts to appoint a citizen member to the committee have failed, the principal should appoint a classified staff member as a replacement.

The following guidelines shall apply to the committee's evaluation process:

- examine and evaluate the materials as a whole, not on the basis of passages pulled out of context;
- consider the district's policy, procedure and philosophy for selection of textbooks and instructional materials;
- weigh strengths and weaknesses and form opinions based upon the selection criteria, the
 appropriateness of the materials to the reading ability and maturity level of the student,
 relevance to the curriculum and educational goals of the school; and
- meet to discuss the material and prepare a written report of the decision to be completed within 30 days of the committee's appointment.

The written report shall be given to the complainant and copies directed to the executive director of educational programs and the coordinator of media services. If the decision is to withdraw or discontinue use of materials, the executive director of educational programs or coordinator of media services will consider the report in deciding on appropriateness in other schools within the district. This constitutes the first level of appeal.

District-Level Review Committee

If the complainant is dissatisfied with the building-level committee's decision, a second appeal may be filed with the executive director of educational programs within 10 school days of the complainant's receipt of the written decision. A district-wide appeal committee consisting of one principal, the executive director of educational programs, the coordinator of media services, two teachers, three certified staff members that include teachers and media specialists, and three citizens shall be appointed by the executive director of educational programs within five school days of the receipt of the second appeal to review the material in question. The building principal will act as chairperson. None of the members of the second-level appeal committee shall have served on the first-level review committee, and the staff members shall be appointed from the appropriate educational level, elementary or secondary, depending upon where the challenge has originated. If reasonable attempts to appoint a citizen member to the committee have failed, the executive director of educational programs should appoint a classified staff member as a replacement. The committee shall review the materials following the committee's evaluation process outlined above.

Within 30 school days of the committee's appointment, the committee chairperson shall present a written report containing the decision to the complainant with a copy given to the superintendent. Within 10 school days of receipt, the complainant has the right to appeal this decision to the board of education by filing a written notice of appeal with the superintendent.

Board-Level Review

Within 45 days of receipt of the notice of appeal, the board of education will review the reports from the appeal committees and provide a hearing for the complainant. This level shall constitute the third and final level of appeal within the school district. The decision of the board of education shall be final. Any materials that have been retained after being the subject of the above procedures may not be challenged again.

<u>Challenged materials shall not be removed from the classroom or media center while a challenge is pending. Upon formal request from the parents/guardians of that student, the student will be supplied with substitute material for completing the course requirement.</u>

No reviews will be conducted during summer break or when school is not in session for one week or longer. The timeline for any review shall be tolled during such breaks.

<u>If circumstances render the 30-day timeline impractible, the board may extend the committee's deadline to complete its review.</u>

Decisions may resolve complaints at any one of the levels as outlined in the preceding policy. Nothing in this rule shall be construed as denying a student's rights as specified in Kansas statutes and administrative regulations to opt out of certain parts of the curriculum.

Impact of Simultaneous Requests

If more than one request for review is received simultaneously, or if one or more requests for review are received while another review is pending, timelines established in this policy may be extended by the superintendent or the board to allow the requests to be processed in turn.

When more than one request for review is received on the same book or materials, such requests may be consolidated. Once a material or book is in the review process, the superintendent or the board may consolidate or reject the additional challenge based on the pending challenge.

A student may earn credits towards high school graduation by demonstrating mastery of the course outcomes and objectives through a performance assessment provided such an assessment has been constructed or approved by the district. The standards for passing the performance assessment shall be a demonstration of mastery (80%) of at least 80% of the essential objectives.

A written request to demonstrate mastery of a class must be submitted by January 20 for a first semester class and by September 20 for a second semester class. A student may not request a performance assessment for credit of a class in which he or she is currently enrolled or has been enrolled.

The request is to be evaluated within 30 school days by a review committee composed of a building administrator, a school counselor, a faculty member appointed by the principal and the student's parent(s) or guardian(s).

If the request is approved, the course instructor will have 30 school days to design a performance instrument that reflects mastery of all course outcomes. Commercially available instruments may be used if they cover all course objectives. A performance instrument shall be approved by the principal. The principal, in consultation with the instructor, will determine the setting and the timelines for the administration of the instrument, as well as the criteria for successful completion of those tasks.

The student has 10 school days in which those designated tasks developed by the teacher and approved by the administration must be performed.

Credit for such classes shall be awarded the appropriate letter grade based on the district grading scale. Students will be allowed only one opportunity to demonstrate mastery through the performance assessment for credit of any particular class. It will not be the responsibility of the school or the instructor to provide instructional and/or review time for the student. However, the course outcomes and objectives, as noted in the district curriculum guide, will be made available.

A written request to "test out" of a class must be submitted prior to the beginning of each semester/year. A student may not request to "test out" of a class in which he or she is currently enrolled or has been enrolled.

The request is to be evaluated within 30 school days by a review committee composed of a building administrator, a school counselor, a faculty member appointed by the principal, and the student's parent(s) or guardian(s).

However, the course outcomes, as noted in the district curriculum guide, and class syllabus will be made available.

Graduation Credit Through Integrated Coursework

The board may allow graduation credit for integrated academic or career and technical education course work. The teacher awarding academic credit shall be fully licensed and may work collaboratively with another instructor to develop a course plan for instruction. The teacher shall monitor the student's progress and level of achievement. The plan will be reviewed periodically to maintain rigor and relevance.

Credit Through Alternative Educational Opportunities

Students enrolled in grades six through twelve may earn course credits through alternative educational opportunities with sponsoring entities. For the purposes of this policy, terms have the following meanings.

- "Alternative educational opportunity" means instruction that primarily occurs outside the classroom with a sponsoring entity.
- "Sponsoring entity" means a business, not-for-profit organization, nonprofit organization, trade association, parent of a student, teacher, or administrator that partners with a school district to provide an alternative educational opportunity to students.

Eligibility Requirements for Sponsoring Entities

The board may accept a proposal from a sponsoring entity if the alternative educational opportunity provided by the sponsoring entity provides an additional learning opportunity for students through a work-based, pre-apprenticeship, internship, industry certification, or community program; and either the proposal is approved by the state board of education as an alternative educational opportunity, or it complies with the requirements of this policy regarding such opportunities.

Requirements for the Provision of Alternative Educational Opportunities

Each approved alternative educational opportunity with a sponsoring entity shall be managed and directed by a licensed teacher employed by the school district. The teacher may work collaboratively with the principal, the sponsoring entity, or another teacher to develop a course plan for instruction with learning outcomes identified. The teacher shall monitor the student's progress and level of achievement based on this plan. The plan will be reviewed periodically and adjusted as needed to promote a quality learning experience. The principal shall provide a report annually, or as requested, to the superintendent evaluating the additional educational opportunity provided to participating students and making recommendations to the superintendent on continuation, termination, or modification of the opportunity.

Process for Submitting a Proposal for an Additional Educational Opportunity

Sponsoring entities wishing to partner with the district to provide additional educational opportunities to students shall submit a proposal to the superintendent outlining the contact information and credentials of the person(s) that would be working directly with the student participants in this experience; educational goals for the partnership; any time, place, manner, and number of participant restrictions regarding how the learning opportunity would be provided; proposed learning outcomes for participating students; and any details regarding prerequisite coursework, certification, or experience a candidate for this experience should possess prior to entering the program.

Criteria for Evaluation Such Proposals

Prior to making a recommendation to the board on whether the district should partner with or continue to partner with a sponsoring entity, the superintendent shall review the proposed alternative educational opportunity in comparison with the board-approved curriculum and goals, consulting other staff members, as necessary, in that process. Before recommending action to continue such partnership from year-to-year, the superintendent may seek and shall review any available reports on the opportunity provided by the principal in accordance with this policy.

The board should consider the recommendation of the superintendent in determining whether to partner with or continue partnership with a sponsoring entity. In order for the board to partner with a sponsoring entity and to maintain such partnership, the sponsoring entity must first meet the eligibility requirements as outlined in this policy.

Additional considerations weighing into the decision to partner with a sponsoring entity may include, but may not be limited to: 1) whether the learning experience meets the curricular, rigor, and relevance needs of the student and/or the district; 2) qualifications, experience, reputation, and responsibility of the sponsoring entity and/or individuals that would be working directly with students; 3) related costs for the district regarding the provision of transportation, equipment, human resources to monitor experience, etc.; 4) space and time constraints if the experience will be provided in district

facilities; 5) student and staff safety; 6) the need for and/or availability of insurance coverage, as applicable; 7) effect on other district course offerings and activities; and 8) student interest. As the welfare of students is a paramount importance to the board, the district reserves the right to complete background checks on any individuals working directly with students on behalf of the sponsoring entity and to base decisions on entering or exiting such a partnership, in whole or in part, on the results thereof.

Determining the Course Credit That May Be Earned Through These Opportunities

The superintendent may develop procedures for review of the experience and the award of credit in accordance with board-approved curriculum. The superintendent may award credit for the experience as deemed appropriate for the district elective offerings based on meeting local standards for those offerings. In order for any alternative educational experience to be approved for credit in a state-required course, such experience must meet all applicable statutory regulatory, and Kansas State Board of Education approved standards for award of such credit.

State Reporting Requirements

The superintendent shall make reports to the Kansas State Department of Education as required thereby. Such reports will include information regarding the alternative educational opportunities offered at each school, the names of sponsoring entities, the number of students participating in such opportunities, and credits earned.

Full-Time Enrollment Required

Only full-time students shall be accepted for enrollment. Exceptions may include

- a) a student who enrolls mid way or later in the semester with fewer than three (3) classes that "match-up," and
- b) a student for whom administrators/counselors are unable to find enough electives to fill a full time schedule, and
- c) a student for whom modification to the curriculum cannot be made in the time left in the semester.
- d) seniors participating in flex scheduling, or
- e) a student with medical hardships.

Each case will be reviewed on an individual basis. When a building administrator/counselor deems a waiver is necessary, he/she will petition the executive director of educational programs who will make a decision based on the individual student's circumstance.

Exemptions for medical reasons or other hardships may be considered by the board. Resident students currently under suspension or expulsion from a public, private or parochial school for reasons including, but not limited to

- a) conduct which substantially disrupts, impedes or interferes with the operation of any public school,
- b) conduct which substantially impinges upon or invades the right of others,
- c) conduct which has resulted in conviction of the student of any offense specified in Chapter 21 of the Kansas Statutes Annotated or any criminal statute of the United States,
- d) disobedience of an order of a teacher, peace officer, school security officer or other school authority when such disobedience can reasonably be anticipated to result in disorder, disruption or interference with the operation of any public school or substantial and material impingement upon or invasion of the right of others,

may be refused admission until such time as the period of suspension or expulsion would have expired at the school previously attended.

Flexible Schedule

Juniors who can complete graduation requirements by taking less than a full class load during the second semester of their senior year can apply for a flexible schedule. Application must be made by March 15 of their junior year unless the principal grants a waiver. All completed applications with student and parental signatures shall be submitted to the counselor and will be reviewed by the administration and the counselor. A meeting shall be held which shall include parents/guardians, the principal or designee, and the student. If approved, the application shall be signed by all involved parties and filed in the student's permanent file.

Seniors who are enrolled in a flexible schedule are to be in the building only during class, a meeting with a teacher or administrator, or lunch block. Seniors attending part-time during second semester shall be allowed to participate in senior class activities and must be passing at least five new subjects of unit weight or they will not be eligible for KSHSAA activities.

Resident Students

A student is considered a resident student if he/she resides in the district and

- a) the student lives with an adult resident of the district and such adult is the lawful custodian of the student; or
- b) the student lives with a person other than the parents caused by the separation of the parents or death of either or both parents; or
- the student lives with a person who has actual care and control of the child and provides a major portion of support; or
- d) the student lives with a person who has actual care and control of the child with written consent of a person who has legal custody of the child; or
- e) the student is 18 years of age or older and is self-supportive.

Children who are homeless or in foster care located in the district will be admitted as resident students and shall have access to all district programs. If required by law such students may be educated in their "school of origin" instead of the building corresponding to the assigned attendance area. For the purposes of this policy, "school of origin" is the school in which a student is enrolled at the time of placement in foster care, a change in placement, or when the student lost permanent housing.

The superintendent shall ascertain that all students who apply for admission to the schools are residents of the district.

Non-Resident Students

Non-resident students are those who do not meet the definition of a resident student. Although the district is not required to admit them, non-resident students may be admitted to the extent that staff, facilities, equipment and supplies are available. If admitted, non-resident students must enroll in the district prior to the first day of school in the academic year that the non-resident student desires to attend. Tuition may be charged to non-resident students at a rate established by the board. Non-resident students will not be admitted to the district if they have voluntarily withdrawn from a school due to poor academic performance, for disciplinary reasons, or while under suspension or expulsion from another school.

Admitted non-resident students shall be evaluated each spring by district administration on the following criteria: evidence of academic progress; residence in the state of Kansas; regularity and punctuality of attendance; and disciplinary record, specifically whether the student complied with the student conduct code and avoided 1) major disciplinary problems and/or 2) a large number of referrals for minor disciplinary problems.

Students may be readmitted or denied admission for the next school year based on the results of these evaluations. However, if the student has a disability, the student's ability to meet these expectations shall be considered prior to denying continued enrollment in the district. Parents shall be informed of any administrative decision on non-resident student applications no later than June 1.

Applications for admission shall be submitted to the executive director of educational programs for approval.

JBC-R School Admissions

JBC-R

The board's procedures for admission of students will be given to the news media well in advance of each school term so that all parents will have complete information about the requirements for enrollment.

The board expects that the administrative procedures for the admission of students will be designed in such a fashion that enrollment is handled expeditiously and with the least possible inconvenience to both parents and students. The enrolling school administrator shall enter on the student's permanent record card the student's legal name and the name, address and telephone number of his/her lawful custodian(s) as required in board policy JBH Release of a Student During the School Day. Any unusual custody circumstances shall be explained and updated insofar as possible. The entrance age for school admission shall be according to state law. Students who have continuously attended high school in pursuit of a high school diploma may continue in the regular program until they complete the year in which they turn 21.

Dropout Recovery

High school students who have dropped out of school may, with the recommendation of their principal, enroll in a dropout recovery program provided by U.S.D. #305. Also, students who have not received a high school diploma and whose class has graduated, but wish to return for further study to receive a high school diploma may enroll in a dropout recovery program provided by U.S.D. #305.

Assignment To Schools

Attendance areas may be established for each attendance center in the district. (See AD) The board shall review school attendance areas each year and make such changes therein as the situation warrants.

Assignment To Classes

The building principal shall be responsible for assigning students to classes. In the elementary schools the principal, in determining the grade level for any student, may take into consideration the previous schooling of the student but may assign the student to a lower grade level or higher grade level if in his/her judgment the best interests of the student would be served thereby. In the secondary schools, to the extent possible, the principal will make class assignments in such a way as to give each student the greatest freedom of choice consistent with the student's interests and abilities.

In the middle school and in the high school, credit shall be given to units earned in other accredited schools at the time the student enrolls in the district, unless the principal shall determine that there is valid reason for not doing so. For online credit approval procedures after enrollment, see board policy IIBGC.

The superintendent, in cooperation with the principals, shall establish an advance enrollment date for all students. Enrollment procedures will be communicated to the news media, and every attempt will be made to enlist the cooperation of the media in informing the public of the enrollment procedures to be followed.

First Time Enrollments

The proof of identity for students enrolling for the first time in the district may include, but may not be limited to, such items as the student's birth certificate, a copy of a court order placing the student in the custody of the Kansas Department for Children and Families, a certified transcript of the student, a baptismal certificate, or other documentary evidence that the board considers satisfactory.

The proof of identity requirements are not to serve as barriers to immediate enrollment of students designated as homeless or foster children as required by the Every Student Succeeds Act (ESSA) and the McKinney-Vento Act as amended by ESSA. The district shall work with the Department of Children and Families, the school last attended, or other relevant agencies to obtain necessary enrollment documentation.

If the identity of the student is not proven by satisfactory documentary evidence within 30 days, the superintendent shall notify the local law enforcement agency as required by law. School personnel shall provide law enforcement personnel with access to school premises when such persons are conducting an investigation in order to determine the identity of a student. No person or persons claiming custody of the child shall be informed of the investigation while it is being conducted. Information acquired about a student during any investigation regarding the identity of that student cannot be used for any purpose other than establishing the student's identity or to support any criminal prosecution emanating from the investigation.

School personnel shall be present at all times during an investigation unless such school personnel and the law enforcement agency personnel agree that their joint presence is not in the best interests of the student. All school personnel shall observe the strict confidentiality requirements of the revised Kansas code for care of children regarding the investigation.

Transfers from Non-Accredited Schools

Students transferring from non-accredited schools may be tested to determine grade level placement. Placement will be made by the principal after consultation with the parent or guardian and guidance personnel. Criteria for final placement shall include past educational experience, age, and successful performance and/or examination at the level of initial assignment.

Resident Students

A "resident student" is any child who has attained the age of eligibility for school attendance and lives with a parent or a person acting as a parent who is a resident of the district. Children who are "homeless" as defined by Kansas law and who are located in the district will be admitted as resident students. For purposes of this policy, "parent" means the natural parents, adoptive parents, step-parents, and foster parents. For purposes of this policy, "person acting as a parent" means a guardian or conservator, a person liable by law to care for or support the child, a person who has actual care and control of the child and provides a major portion of support, or a person who has actual care and control of the child with written consent of a person who has legal custody of the child.

Non-Resident Students

Non-resident students are those who do not meet the definition of a resident student.

Although the district is not required to admit non-resident students, non-resident students may be admitted to the extent that staff, facilities, equipment, and supplies are available. Other criteria regarding students seeking non-resident student admittance may be considered prior to acting on any annual non-resident student application as specified in this policy, and students residing outside of the state of Kansas may be denied enrollment or continued enrollment based on out-of-state residency.

Non-Resident Student Continued Enrollment

Non-resident students admitted to the district shall be evaluated each spring by district administration on the following criteria: whether the student made academic progress; residence in the state of Kansas; regularity and punctuality of attendance; and disciplinary record, specifically whether the student complied with the student conduct code and avoided 1) major disciplinary problems and/or 2) a large number of referrals for minor disciplinary problems.

Students may be readmitted or denied admission for the next school year based on the results of these evaluations. However, if the student has a disability, the student's ability to meet these expectations shall be considered prior to denying continued enrollment in the district. Parents shall be informed of any administrative decision on non-resident student applications no later than June 1.

Enrollment Restriction

No student, regardless of residency, who has been suspended or expelled from another school district will be admitted to the district until the period of such suspension or expulsion has expired.

Enrollment Procedures

The superintendent shall establish orderly procedures for enrolling all students, including pre-enrollment, changes in enrollment, normal enrollment times, and communication to parents and to the public.

Part-Time Student Enrollment

The board allows any child to enroll part-time in the school district to allow the student to attend any courses, programs, or services offered by the school district if the child:

- is also enrolled in a non-accredited private elementary or secondary school or in any other private, denominational, or parochial school as required by law;
- requests to enroll part-time in the school district; and
- meets the age of eligibility requirements for school attendance.

<u>District administrators shall make a good faith attempt to accommodate scheduling</u> requests of students enrolling in the school district in these situations but shall not be required to make adjustments to accommodate every such request.

Part-time students, other than those specified previously in this policy, may enroll with the administrator's permission if they complete all paperwork in a timely fashion. Such part-time students may be admitted only to the extent that staff, facilities, equipment, and supplies are available, and the students follow the district's student conduct policies and rules.

Flexible Schedule

Juniors who can complete graduation requirements by taking less than a full class load during the second semester of their senior year can apply for a flexible schedule. Application must be made by March 15 of their junior year unless the principal grants a waiver. All completed applications with student and parental signatures shall be submitted to the counselor and will be reviewed by the administration and the counselor. A meeting shall be held which shall include parents/guardians, the principal or designee, and the student. If approved, the application shall be signed by all involved parties and filed in the student's permanent file.

Seniors who are enrolled in a flexible schedule are to be in the building only during class, a meeting with a teacher or administrator, or lunch block. Seniors attending part-time during second semester shall be allowed to participate in senior class activities and must be passing at least five new subjects of unit weight or they will not be eligible for KSHSAA activities.

Identification of Students

All students enrolling in the district for the first time shall provide required proof of identity. Students enrolling in kindergarten or first grade shall provide a certified copy of their birth certificate; a certified copy of the court order placing the child in the custody of the Secretary of the Department for Children and Families, or other documentation which the board determines to be satisfactory. Students enrolling in grades 2-12 shall provide a certified transcript, similar pupil records or data, and other documentary evidence the board deems satisfactory.

The above requirements are not to serve as barriers to immediate enrollment of students designated as homeless or foster children as required by the Every Student Succeeds Act (ESSA) and the McKinney-Vento Act as amended by ESSA. The district shall work with the Department for Children and Families, the school last attended, or other relevant agencies to obtain necessary enrollment documentation.

If proper proof of identity is not provided within 30 days of enrolling, the superintendent shall notify law enforcement officials as required by law and shall not notify any person claiming custody of the child.

Enrollment Information

The enrollment documentation shall include a student's permanent record card with a student's legal name as it appears on the birth certificate or as changed by a court order and the name, address, and telephone number of the lawful custodian. The records shall also provide proper proof of identity.

Assignment To School Building, Grade Level, or Classes

<u>Unless otherwise provided herein, the superintendent shall assign students to the appropriate building. Any student desiring to attend a school outside the attendance area in which the student resides may do so only with the prior written permission of the superintendent.</u>

If required by law, students placed in foster care or students who are homeless may be educated in their "school of origin" instead of the building corresponding to the assigned attendance area. (For definition of "school of origin," see regulations for JBCA and JBCB.)

Assignments to a particular grade level or particular classes shall be determined by the building principal based on the educational abilities of the student. If the parents disagree, the principal's decision may be appealed to the superintendent. If the parents are still dissatisfied with the assignment, they may appeal in writing to the board.

Transferring Credit

In middle school and high school, full faith and credit shall be given to units earned in other accredited schools at the time the student enrolls in the district, unless the principal determines there is a valid reason for not doing so. For online credit approval procedures after enrollment, see IIBGB.

Transfers from Non-Accredited Schools

Students transferring from non-accredited schools will be placed by the principal. Initial placement will be made by the principal after consultation with the parents or guardians and guidance personnel. Final placement shall be made by the principal based on the student's documented past educational experiences and performance on tests administered to determine grade level placement.

Unless reporting would violate the terms of any memorandum of understanding between the district and the authority to which reports would be made, the superintendent shall report students who are excessively absent from school.

Truancy is defined as any three consecutive unexcused absences, any five unexcused absences in a semester, or seven unexcused absences in a school year, whichever comes first. School year means the period from July 1 to June 30. Parents will be notified annually of the attendance requirements for summer school/extended school year. Students who are absent without excuse for a significant part of any school day shall be considered truant. A significant part of the day is defined as one hour, one period, one block or one lunch period. Prior to reporting to either DCF (if the student is under 13) or the county or district attorney (if the student is 13 and over), a letter shall be sent to the student's parent or guardian notifying them that the student's failure to attend school without a valid excuse shall result in the student being reported truant.

Waiver of Compulsory Attendance Requirements

Students 16 or 17 years of age may be exempted from compulsory attendance regulations if the parent/guardian attends the counseling session required by law and signs the appropriate consent and waiver form, if the student earns a GED, or if the student is exempted from compulsory attendance requirements pursuant to a court order.

Involvement of Law Enforcement

Law enforcement officers may return truant children to the school where the child is enrolled, to the child's parent or guardian or to another location designated by the board to address truancy issues.

Reporting to Parents

If a truant child is returned to school by a law enforcement official, the principal shall notify the parent/guardian.

<u>Unless reporting would violate the terms of any memorandum of understanding between</u> the district and the authority to which reports would be made, the superintendent shall report students who are inexcusably absent from school to the appropriate authority.

Truancy is defined as any three consecutive unexcused absences, any five unexcused absences in a semester, or seven unexcused absences in a school year, whichever comes first. Truancy shall not apply to students who have attained a high school diploma, a general educational development credential, or a high school equivalency credential or any child who is determined to be an exceptional child, except for an exceptional child who is determined to be a gifted child, under the provisions of the special education for exceptional children act.

Exceptions also exist for students attending the Kansas academy of mathematics and science and for students who are part of a recognized church or religious denomination objecting to a regular public high school education under circumstances specified in state law.

For truancy purposes, being enrolled and continuously attending a public school; a private, denominational, or parochial school taught by a competent instructor for a period of time which is substantially equivalent to the period of time public school is maintained in the school district in which the private, denominational, or parochial school is located; or a combination of attendance in both a public school and a private, denominational, or parochial school may satisfy compulsory attendance requirements. School year means the period from July 1 to June 30. Students who are absent without a valid excuse for a significant part of any school day shall be given an unexcused absence for truancy accounting purposes considered truant.

Prior to reporting to either the Department for Children and Families (if the student is under 13) or the county or district attorney (if the student is 13 or more years of age but less than 18 years of age), a letter shall be sent to the student's parent(s) or guardian notifying them that the student's failure to attend school without a valid excuse shall result in the student being reported truant.

Waiver of Compulsory Attendance Requirements

Students 16 or 17 years of age may be exempt from compulsory attendance regulations if:

- the student is regularly enrolled in and attending a program recognized by the board as an approved alternative educational program;
- the parent(s) or person acting as parent provides written consent to allow the student to be exempt from the compulsory attendance requirement and the student and the student's parent or person acting as parent attend the counseling session required by law and signs the appropriate consent and waiver form;
- the student is not subject to truancy law in accordance with law or this policy;
- the child is regularly enrolled and continuously attending school as required by law and is concurrently enrolled in a postsecondary educational institution; or
- the student is exempt from compulsory attendance requirements pursuant to a court order.

The board prohibits acts of bullying in any form, including cyberbullying, on or with district property, in district vehicles or at district-sponsored activities or events. The board believes that a safe, healthy and supportive environment during all school-related functions is necessary for students to learn and achieve high academic standards. Bullying, like other disruptive or violent behaviors, is conduct that interferes with both a student's ability to learn and the district's ability to educate students. All Salina USD 305 staff members, students, parents and volunteers are expected to treat others with dignity, civility and respect and to refuse to tolerate bullying in order to provide positive examples for acceptable student behavior.

Bullying is defined as any intentional gesture or any intentional written, verbal or physical act or threat by any student, staff member or parent towards a student or towards a staff member which is sufficiently severe, persistent or pervasive to create an intimidating, threatening or abusive educational environment that a reasonable person, under the circumstances, knows or should know will have the effect of

- harming a student or staff member, whether physically or mentally,
- damaging a student's or staff member's property,
- placing a student or staff member in reasonable fear of harm to the student or staff member, or
- placing a student or staff member in reasonable fear of damage to the student's or staff member's property.

"Cyberbullying" is defined as bullying by use of any electronic communication device through means, including, but not limited to, email, instant messaging, text messages, blogs, mobile phones, pagers, online games and websites.

"District vehicle" means any school bus, school van, other school vehicle and private vehicle used to transport students or staff members to and from school or any school-sponsored activity or event.

The board expects students to conduct themselves in a manner in keeping with their levels of development, maturity, and demonstrated capabilities with a proper regard for the rights and welfare of other students, school staff and volunteers.

The board believes the standards for appropriate student behavior must be established cooperatively with input from students, parents/guardians, staff and the community. These standards must encourage the development of student self-discipline in an atmosphere of respect for self and others and respect for district and community property.

The board believes that the best discipline is acceptance of personal responsibility and is self-imposed. It is the responsibility of staff to use disciplinary situations as opportunities for helping students learn to assume responsibility and to learn from the consequences of their behavior. Staff members who interact with students shall apply best practices designed to *prevent* discipline problems and encourage students' abilities to develop self-discipline.

JDDC Bullying JDDC-2

The district prohibits both active and passive bystander support for acts of bullying. The staff should encourage students to support students who walk away from these acts when this would defuse the situation, constructively attempt to stop them, or report them to the designated authority.

The board requires school administrators to develop and implement procedures ensuring that individualized attention be given to both perpetrators and victims of bullying, when incidents occur. It is important not to target either bully or victim for criticism, but rather to make sure that all the factors contributing to the bullying are recognized and understood.

Complaint Procedures

It is the responsibility of all students, staff members and volunteers to report acts of bullying. All reports of bullying will be taken seriously. Staff members receiving the reports will record the details as reported. The school staff or administrator will support students, coworkers and volunteers making such reports and protect against any potential retaliation. An investigation to determine the facts will take place immediately or as soon as practicable in order to verify the validity and seriousness of the report.

Filing a report in good faith will not reflect upon the individual's status, nor will it affect his or her grades, employment or volunteer status with the district. The district shall keep the complaint confidential for both the accused and the accuser, until such time as the misconduct is confirmed and sanctions are imposed.

The board specifically prohibits any person from falsely accusing another as a means of bullying. The consequences and appropriate remedial action for a *student* found to have falsely accused another as a means of bullying may range from positive behavioral interventions up to and including suspension or expulsion. A *school employee* found to have falsely accused another as a means of bullying shall be disciplined in accordance with district policies, procedures, and agreements.

The board prohibits reprisal or retaliation against any person who reports an act of bullying. The consequences and appropriate remedial action for a person who engages in reprisal or retaliation shall be determined by the administrator after consideration of the nature, severity, and circumstances of the act.

Such screenings will be administered in accordance with state law. When appropriate, other screenings deemed beneficial to students may be performed in the school health program.</u>

When these screenings cannot be performed by district staff, the board authorizes the superintendent to identify healthcare service providers to provide them. Such healthcare service providers shall be required to enter into a contract with the district prior to providing any screenings or other services to students in the school setting.

Vision Screenings

Basic vision screenings shall be provided to students without charge according to the following schedule:

- annually for every child participating in IDEA Part B programs;
- <u>at least once each school year for students in kindergarten and grades one, two, three, five, seven, and ten;</u>
- within the first year of enrollment in the district; or
- upon request by the parent or guardian of a student enrolled in an accredited nonpublic school who resides in the school district.

These basic vision screenings shall be performed by a vision screener designated by the board, who shall follow current state vision screening guidelines for performing the screenings. The results of the screening and, if necessary, referral for an examination by an ophthalmologist or optometrist shall be reported to the parents or guardians of the student. Any referral shall not show a preference in favor of any particular ophthalmologist or optometrist to provide an additional examination.

While not part of the board-provided vision screening program, each student needing assistance in achieving mastery of basic reading, writing, and mathematics skills shall be encouraged to obtain an eye examination by an optometrist or ophthalmologist to determine if the student suffers from conditions impairing the ability to read. Expense for such an examination, if not reimbursed through Medicaid, private insurance, or any other governmental or private program, shall be the responsibility of the student's parent or guardian.

Hearing Screenings

Each year hearing screening procedures will be conducted for students in their first year of school attendance in the district. Such procedures will be provided for other students at a frequency of not less than once every three years unless otherwise specified by state law. Students known to have hearing difficulties and students referred by teachers, parents, and/or physicians will be screened regardless of grade level.

Under certain conditions, hearing screening services are provided for students residing within district boundaries who are enrolled in accredited non-public schools. These services are coordinated between the administration of the accredited nonpublic school and district administration and require a request from the student's parent or guardian. Implementation of the program for nonpublic school students followed the same guidelines as for district students.

JGCD Health Screenings

JGCD

The results of the test and, if necessary, the desirability of examination by a qualified physician shall be reported to the parents or guardians of students screened.

Dental Screenings

Free dental inspections will be provided to students annually, planned for by designated school staff, and conducted by appropriate dental care providers. Students presenting a certificate from a legally qualified dentist providing that a dental examination was completed in the three months prior to the school dental inspection need not be provided with an inspection.

A certificate of the result of a school dental inspection, together with suggestions of requirements for the curing of any defects found, shall be made by the dental care provider making such inspection. One copy of this certificate is to be furnished to the child examined, and another will be filed with the clerk of the board. No dental work other than the inspection and provision of the certificate shall be performed by the examining dental care provider without the consent of the parents or guardian of the child.

Selected Screenings

Other screening procedures may be deemed appropriate and beneficial to students. Designated staff will assist in the planning and implementation of other screening programs following standard procedures.

Screening results and referrals, when necessary, will be communicated to parents.

In accordance with state law, the parent or guardian of any child entering school for the first time shall be informed of the availability of sickle cell screening and the location of the nearest facility providing blood tests for sickle cell trait and sickle cell anemia.

Attendance and Truancy

Virtual students under 18 are subject to the requirements of compulsory attendance (K.S.A. 72-1111) and truancy (K.S.A. 72-1113).

Attendance will be documented through a combination of measures

- Online time monitored through log-in learning management system
- Adequate program progress (maintaining set pace)
- Offline time using academic activity log
- On-site activities

Making sure your student engages in school every day is one of the most important things you can do to help your student succeed in Salina Virtual Innovation Academy. <u>Parents/guardians</u> are responsible for ensuring their student is fully participating in school while at home.

Absence Reporting Procedure

If your student is not making academic progress engaged assigned academic work and/or there is no evidence of participation in school requirements, due to non-participation in the virtual learning environment, the student will be considered absent from school. Interventions determined by the school and parents will be attempted to re-engage the student. Failure to reengage the student may result in The school principal will communicate with parent/guardian about attendance concerns to develop a plan prior to recording unexcused absences or proceeding with any truancy filings. Virtual schooling has flexibility in when school work can be completed, but the expectation is students will be fully engaged in the learning process.

If your student is not making academic progress, as a result of non-participation in the virtual learning environment, the student will be considered absent from school.

Truancy Reports

According to Kansas Compulsory Attendance Law, when a student has unexcused absences on three consecutive school days, five school days in a semester or seven school days in a school year, whichever occurs first, a report of truancy will be made to the county attorney for legal action.

Required Instructional Hours

Attendance is based on students logging in to our student information systems and our learning management system, as well as the regular submission of coursework.

Regardless of the amount of time a student misses due to absences, the student is required to complete all coursework included in the course gradebook and assessment list. Excessive absences may lead to a student being considered truant. Health related absences of three or more consecutive school days may also require a doctor's note.

On Academic Notice

A student is placed on academic notice if they do not meet the requirements of a student in good standing for two weeks. The teacher is then required to collaborate with the student to outline a plan by which the student can return to good standing. Failing that, the student is placed on academic warning and a stricter plan is outlined by the teacher, the student, parent, and principal. If the plan is unsuccessful still, the student is placed on academic probation and a another meeting is called with parent, student, principal and teacher to outline lengthier terms to remain enrolled in the school. If the student remains uncommitted to the work and unable to achieve success in the virtual environment, the student will be placed on academic probation for the rest of the semester and then truancy measures may will be taken.

Academic Honesty

Salina Public Schools has established a high expectation for academic integrity. Academic dishonesty in any form will not be tolerated. Students who violate this standard will be subject to disciplinary procedures.

Communication of this policy through this handbook is considered a warning. Students found to have participated in academic dishonesty will receive disciplinary consequences as listed on the discipline chart.

Examples of academic dishonesty include but are not limited to the following:

- Verbally or in writing giving another student answers on assignments, papers, quizzes, tests, or other academic activities
- Using the Internet, books, other student's notes, or other sources to obtain information and answers while taking a quiz, test, or exam
- Logging into someone else's Edgenuity, Google, or other accounts
- Copying, paraphrasing or summarizing another person's work without citing that source.
- Copying and pasting items from anywhere and using it as your answer
- Using material, including photographs, from the internet or any other source and representing them as your own, even if you have changed some of the words.
- Any manner of falsifying progress with the online curriculum

INFORMATION MEMORANDUM

TO: All Head Start and Early Head Start Grant Recipients

SUBJECT: Competitive Bonuses for the Head Start Workforce

INFORMATION:

Head Start staff are the backbone of our programs. Every day, staff work tirelessly to provide high-quality Head Start services to children and families. During very challenging times, Head Start staff have continued to ensure children and families have the support they need to thrive.

Adult wellness is vital in any workforce; particularly in Head Start programs where children and families in the most vulnerable circumstances are served. Providing comprehensive services through a whole family approach requires staff to be well-versed in the tenets of early childhood education and development. It also requires a level of clear-headedness and physical stamina that must be supported with a systemic approach. This approach should, at its core, value the important role of everyone in the Head Start workforce and recognize that they deserve appropriate compensation (i.e., wages and benefits) to fulfill their important charge. Indeed, a stable, qualified workforce is critical for programs to keep their classrooms open and maintain their funded enrollment. This cannot be accomplished if the workforce continues to be undervalued and undercompensated.

The Office of Head Start (OHS) recognizes that the dedication of Head Start staff is especially commendable given persistently low wages and lack of comprehensive benefits, particularly for education and family services staff. Permanent, sustainable wage increases require additional funding. This is often done by freeing up funds within existing budgets — a long-term program planning activity that often involves making difficult decisions — or through additional appropriations from Congress. In the meantime, OHS recognizes programs are seeking strategies to provide immediate relief to current staff, as well as ways to fill vacant positions as they begin to plan for the next program year.

This Information Memorandum (IM) describes providing competitive financial incentives with existing grant funds as a short-term strategy (45 CFR §75.430(f)) to invest in the Head Start workforce and promote retention of current staff, as well as recruitment of new staff to fill vacant positions. OHS strongly encourages all Head Start programs to use American Rescue Plan (ARP) funds, base grant operations funds, and other COVID-19 relief funds to offer competitive financial incentives to staff, such as retention and hiring bonuses, to help stabilize and support

their workforce in the near term.¹ Please be mindful of any applicable grant requirements that must be met, including period of availability for different funding sources (e.g., March 31, 2023, for ARP funds).

OHS encourages programs, including those who have already offered such incentives, to reevaluate the monetary size of incentives that are necessary and reasonable to retain and recruit staff. These may be larger than previously considered. Below are strategies programs can use when determining and justifying the necessity and reasonableness for larger incentives. Programs are encouraged to apply these strategies for staff positions in their program that are impacted by the workforce shortage.

Competitive Financial Incentives

Challenges to maintaining a qualified workforce are not unique to Head Start programs. Employers in many industries are currently struggling to retain and hire staff. Financial incentives can be a powerful tool to promote retention and recruitment, particularly for positions that are difficult to fill or experiencing high turnover. Many employers are appealing to workers by offering financial incentives, such as retention and hiring bonuses. These <u>incentives vary</u> widely both in size and distribution schedule.

Head Start programs are competing with other employers, such as public schools, for qualified staff. OHS strongly encourages programs to offer financial incentives that are substantial enough to compete with incentives and overall compensation rates offered by competitor employers in their local job market, including elementary schools, while understanding that such financial incentives are not permanent wage increases. Programs may match or reasonably exceed offers made by competing employers, including elementary schools. The amount of such financial incentives may be larger than programs have offered in the past. As outlined in ACF-IM-HS-21-01, what is a reasonable cost during the ongoing COVID-19 pandemic and the heightened workforce needs likely looks different than what was reasonable during pre-pandemic times.

Justification for Financial Incentives: Determining Necessity and Reasonableness

When making data-informed programmatic decisions on financial incentives and determining necessity and reasonableness, programs can consider the following.

1. Competing employers can include public school settings.

- A program may consider bonuses and overall compensation rates being offered by local elementary school settings for positions that are comparable to the Head Start position for which the incentive is being provided (e.g., a Head Start preschool teacher provides comparable services to a kindergarten or first grade teacher).
- Programs may consider bonuses and compensation rates being offered in neighboring counties or school districts.

Since monetary bonuses likely count as income, grant recipients should understand income requirements for public benefits to determine how such bonuses may impact staff members' access to these benefits.

• These data points can be integrated into a program's <u>wage comparability study</u> as one key approach to using data to document workforce strengths and needs.

2. OHS strongly encourages programs to structure incentives in a way that rewards retention of existing staff.

- Think about scaling incentives based on employee tenure with the program.
- Consider the implications of different incentive payment structures or schedules. For instance:
 - A single lump sum payment may be particularly impactful for Head Start staff who have an established tenure with the program.
 - OHS suggests programs stagger any hiring bonuses for new and prospective staff over time to promote retention, rather than providing one lump sum upon hire. For example, a hiring bonus may be advertised for a position posting as one large amount, with part of the bonus paid upon beginning employment with the program and subsequent portions dispersed in one or more increments at future points in time as the new employee remains in their position (e.g., six months after hire; one year after hire; etc.).

3. Programs should use data on the extent of their workforce shortage and program needs to demonstrate the necessity and reasonableness for competitive incentives.

- Relevant data can include the number of vacancies by type of position, how often
 vacancies occur, how long posted vacancies remain unfilled, the number of
 applicants, the number of applicants who are offered or attend interviews, the number
 of candidates accepting new positions, the length of time new hires remain employed
 in the program, and data from exit and stay surveys.
- Programs can highlight how a staffing shortage prohibits them from reaching full inperson enrollment as a demonstration of necessity.
- If a program already offers financial incentives and continues to struggle to maintain their workforce, this may be an indicator to increase incentive amounts to make them more competitive.
- 4. Any incentives for staff are subject to an established written policy of the grant recipient for allowability (45 CFR §75.430(f); 45 CFR §75.431; 45 CFR §1302.90(a)). OHS reminds programs to update their written policies and procedures with governing board approval to reflect more competitive staff incentives prior to implementation.
- 5. **Financial incentives may complement, but should not replace, intentional workforce planning practices.** Financial incentives, particularly those that use ARP funds, are a short-term strategy to recruit and retain staff. Programs should continue to use <u>intentional workforce planning practices</u> to build and sustain a stable workforce.

OHS recognizes that the availability and size of any financial incentives will depend on many local factors, including cost of living and the local job market. Programs should contact their Regional Office with any questions about this IM and providing financial incentives.

Thank you for the work you do on behalf of children and families.
